

In addition to the OEM warranties, the Success Protection Package provides a number of additional coverages to protect your business. The program begins with a thorough inspection by the Prime shop and by YOU. It is CRUCIAL that you do a complete inspection at the beginning of your lease documenting any and all damage on the truck (even damage you might feel is minor). Each USED truck starts with either a 30-day bumper to bumper warranty (if the truck is less than 2 years old) or a 60-day warranty (if the truck is 2 years or older). This warranty does NOT include Full Service, Lube, Tires, physical damage not noted until after truck has left the yard, or request for repair where no mechanical repair is necessary. Next, each pre-leased truck has a carry-over warranty which is established based on the amount of authorized, dispatched miles on the truck x 1.75 cents. Throughout your lease, driveline repairs will first be reimbursed from your carryover warranty. If you incur driveline repairs above and beyond the balance of the Carryover Warranty, those driveline repairs will be covered by the Success extended driveline warranty. Under this warranty, Success pays for driveline repairs which exceed \$500 per repair at the time of repair and will recover 50% of the cost from you at completion/termination of the lease. Any driveline repair under \$500 is your responsibility but as with those over \$500, Success will pay the cost at time of repairs and then recover the cost from you at completion/termination of the lease. This does not include "diagnostic", "no problems found", "not repaired at this time" or "accident damage". All of the above coverages are VOID if the repair is caused by operator negligence.

DRIVELINE (COVERED)

Accessory Drive (tanker only)	Fan Clutch	NOX Sensor Replacement	Surge Tank
Alternator	Fan Hub	Oil Cooler	Tensioner
Balance Driveline	Flywheel housing	Oil Pan	Thru Shaft Seal
Brakes	Fuel Injector	Power Divider	Top Cover
Cam Seal	Fuel Pump	Radiator	Trans Regulator
Clutch (brake & rod)	Head Gasket	Rear Differential Seal	Transmission
Crankshaft	Input Shaft Seal	Rear Ends	Transmission Seal
DEF Injector & Metering Unit	Intercooler (Air to Air Cooler)	Regulator Valve	TRS & SRS Sensors
DPF Filter Replacement	Internal Engine Component	Shift Regulator	Turbo
ECM	Jake Brakes	Splitter Valve	U-Joints
Engine Fan	Neutral Switch	Starter	Valve Cover
			Water Pump

NON-DRIVELINE (NOT COVERED)

Adjust Clutch	Clamps & Hoses	Fuel Tank	Springs
A/C System	Defrost Fan	ICU	Spring Pins
Air Compressor	DPF Filter Cleaning	Inverter	Steer Shaft Seal
Air Filter	Drums	King Pins	Steering Gear Box
Air Governor	Engine Dyno	Manifold Exhaust	Wheel Seals
Air Valves	Engine Supplies	Overhead	
Antifreeze	Engine Wiring Harnesses	Power Steering Pump	
Battery-unless Alternator replaced	Fan Shroud	Sam Cab	
Belts	Fluids	Shocks	
Brakes	Front & Rear Suspension	Slack Adjuster	
Bunk Water Supply Solenoid	Fuel Filter	Speed Sensor	

*Will cover collision mitigation system repairs unless due to driver abuse.
