

# SUCCESS PROTECTION PACKAGE

In addition to the OEM warranties, the Success Protection Package provides a number of additional coverages to protect your business. The program begins with a thorough inspection by the Prime shop and by YOU. It is CRUCIAL that you do a complete inspection at the beginning of your lease documenting any and all damage on the truck (even damage you might feel is minor). Each USED truck with greater than 25,000 miles will have a 90 day bumper to bumper warranty. This warranty does NOT include tires, physical damage not noted until after truck has left the yard, or request for repair where no mechanical repair is necessary. After 90 days, certain repairs will be covered by the Success extended warranty. Under this warranty, Success pays for covered repairs (listed below under Covered Repairs) which exceed \$500 per repair at the time of repair and will recover 50% of the cost above \$500 from you in weekly payments of \$50 until the balance is collected. Any covered repair under \$500 is your responsibility but as with those over \$500, Success will pay the cost at the time of repairs and then recover the cost from you in weekly payments of \$50 until the balance is collected. This does not include "diagnostic", "no problems found", "not repaired at this time" or "accident damage". All the above coverages are VOID if the repair is caused by operator negligence.

Additionally, the Success Protection Package covers all repairs to the Collision Mitigation system other than "no problems found" and those caused by operator negligence.

## DRIVELINE (COVERED)

Accessory Drive (tanker only)	Fan Clutch	Oil Pan	Tensioner Belt
*Aftertreatment	Fan Hub	Power Steering Pump	Top Cover
Air Compressor	Flywheel housing	Power Divider	Trans Regulator
Alternator	Fuel Injector	Radiator	Transmission
Balance Drive line	Fuel Pump	Rear Differential Seal	Transmission Seal
Cam Seal	Head Gasket	Rear Ends	TRS & SRS Sensors
Clutch (brake & rod)	Input Shaft Seal Intercooler	Regulator Valve	Turbo
Clutch Actuator	(Air to Air Cooler) Jake	Shift Regulator	U-Joints
Crankshaft	Brakes	Splitter Valve	Valve Cover
ECM	Neutral Switch	Starter	Water Pump
Engine Fan	Oil Cooler	Surge Tank	

*\*Major Components (DOC, Filter replacement, SCR, One Box Replacement)*

## NON-DRIVELINE (NOT COVERED)

Adjust Clutch	Belts	Fan Shroud	King Pins
A/C System	Brakes	Fluids	Manifold Exhaust
Air Filter	Bunk Water Supply Solenoid	Front & Rear Suspension	Overhead
Air Governor	Defrost Fan	Fuel Filter	Shocks
Air Valves	Drums	Fuel Tank	Slack Adjuster
Antifreeze	Engine Dyno	ICU Clamps & Hoses	Speedo Sensor
Battery (unless Alternator Replaced)	Engine Supplies	Inverter	Springs

Additionally, progressive damage caused by covered components will be reviewed and where determined to be the result of a covered component, will be included in the covered repair and handled in the same manner as the covered component.

*This information is effective as of June 30, 2023 until further notice or cancellation.
